Part I: Estimates

☒ **No Fiscal Impact**

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- ☐ If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- ☐ If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- ☐ Capital budget impact, complete Part IV.
- ☐ Requires new rule making, complete Part V.

FISCAL NOTE

REQUEST NO.

RESPONDING AGENCY:	CODE:	DATE:	BILL NUMBER:
Office of the State Actuary	035	3/1/05	HB 2162

SUMMARY OF BILL:

This bill impacts the Law Enforcement Officer's and Fire Fighter's Retirement System Plan 2 (LEOFF 2) by establishing a medical board to oversee the funding and provision of health insurance benefits for retired members. These retiree health benefits would be funded through active member contributions and retiree premiums.

LEOFF 2 members would be eligible for coverage under the Public Employee's Benefits Board (PEBB) programs if coverage is selected immediately upon retirement. LEOFF 2 retirees would be included in the community-rated risk pool along with retired and disabled state, K-12, and higher education members.

The LEOFF 2 medical board would consist of 11 members:

- 3 active law enforcement officers,
- 3 active fire fighters,
- 1 member of the House of Representatives,
- 1 member of the Senate, and
- 3 members with expertise in the field of retiree health benefits.

The LEOFF 2 medical board would be responsible for payment of premium rates and subsidy amounts developed by the Health Care Authority. The board would determine the retired member premiums and active member contributions within the funding needs of the system including any amounts necessary for reserves and administration of the board.

The board would also adopt actuarial tables, assumptions, and cost methodologies in consultation with an enrolled actuary retained by the board.

The Retired Plan 2 LEOFF medical fund, and the Retired Plan 2 LEOFF medical expense fund are created in the office of the state treasurer. All receipts from employee contributions, participating retiree premiums, and amounts for administration of the board must be deposited into these funds.

Effective Date: 90 days after session.

CURRENT SITUATION:

Currently retired or disabled state, K-12, and higher education employees are eligible for continuation of coverage under the Public Employees' Benefits Board insurance programs.

Retired or disabled county, municipality, or other political subdivision LEOFF 2 employees, and their dependents, are eligible to continue in insurance programs offered by their employers.

MEMBERS IMPACTED:

We estimate that all active members retiring from LEOFF 2 and all currently retired LEOFF 2 members will be affected by this bill. As of September 30, 2003, there are 14,560 active and 300 retired members of LEOFF 2 (excluding survivors).

This bill would not increase retirement benefits in LEOFF 2.

ASSUMPTIONS:

We assume that retirement rates for LEOFF 2 will not change as a result of this bill.

FISCAL IMPACT:

None.

State Actuary's Comments:

Opportunities to establish a qualified post-retirement medical fund under the Internal Revenue Code are quite limited. It is not clear whether this proposed program would qualify. As a result, contributions to the fund, and associated investment income, may generate taxable income for the affected members.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe, by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.

HB 2162 creates the retired plan 2 law enforcement officers’ and fire fighters’ medical fund and the retired plan 2 law enforcement officers’ and fire fighters’ medical expense fund. The bill allows these accounts to retain their earnings from investments. The state investment board has full power to invest the moneys. The office of the state treasurer will invest any money in the state’s concentration account that is not invested by the state investment board.

Earnings from investments:

The amount of earnings by an account is a function of the average daily balance of the account and the earnings rate of the investment portfolio. The average daily balance is a function of the beginning balance in the account and the timing & amount of receipts, disbursements, & transfers during the time period in question. Accordingly, even with a beginning balance of zero, two accounts with the same overall level of receipts, disbursements, and transfers can have different average balances, and hence differing earnings.

There will be an impact to the earnings; however, the actual earnings will be determined more by the impact to the average daily balance than the amount of increases or decreases in receipts, disbursements, and transfers. Currently, estimated earnings are indeterminable. Without projected monthly estimates of receipts, disbursements, and transfers, OST is unable to estimate the changes to the average balance of the account and the impact to earnings.

Based on the November 2004 Revenue Forecast, the net rate for estimating earnings for FY 05 is 1.70%, FY 06 is 2.72%, and FY 07 is 2.99%. Approximately \$17,000 in FY 05, \$27,200 in FY 06, and \$29,900 in FY 07 in net earnings and \$5,000 in OST management fees would be gained or lost annually for every \$1 million increase or decrease in average daily balance.

II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

HB 2162 creates the retired plan 2 law enforcement officers’ and fire fighters’ medical fund and the retired plan 2 law enforcement officers’ and fire fighters’ medical expense fund. The bill allows these accounts to retain their earnings from investments. The state investment board has full power to invest the moneys. The office of the state treasurer will invest any money in the state’s concentration account that is not invested by the state investment board.

II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

Identify provisions of the measure that require the agency to adopt new administrative rules or repeal/revise existing rules.

See attached Narrative.

HCA Fiscal Note

Bill Number: HB 2162

HCA Request #:05-52

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

The bill would allow all law enforcement officers' and fire fighters' retirement system (LEOFF) Plan 2 members who are receiving a retirement allowance as of July 1, 2006, who separated from employment with a county, municipality, special district, or other political subdivisions, to purchase health insurance through the Public Employees Benefit Board (PEBB) program. Also, members of LEOFF Plan 2 who separate from employment with a county, municipality, special district, or other political subdivision on or after July 1, 2006 will be eligible to join PEBB. The bill would also create an 11-member medical board to help administer this process.

The medical board, including an actuary employed by the medical board, along with the Health Care Authority (HCA) will establish an employee contribution and premium level that will be collected from active and retired LEOFF Plan 2 members. If an agreement on the amounts cannot be reached between the medical board and HCA, a third party actuary will help determine the final contribution level. From the employee contribution and premiums collected, the medical board will be responsible for the payment of premium rates and subsidy amounts established by HCA to cover the additional cost of LEOFF Plan 2 members joining PEBB.

At the request of the Office of Financial Management, HCA is including the expenditures of the medical board in HCA's fiscal note.

II. B – Cash Receipts Impact

HCA will receive funds from the medical board that will cover the additional costs to HCA, due to new LEOFF Plan 2 members joining PEBB. HCA estimates the following cash receipts:

	FY 06	FY 07	FY 08	FY 09	FY 10	FY 11
Fund 721	\$ -	\$2,139,365	\$2,312,676	\$ 2,483,202	\$ 2,635,076	\$ 2,781,618

Medical Board:

In addition to the cash receipt covering the additional LEOFF Plan 2 members joining PEBB (table above), the medical board will receive the following estimated cash receipts for administration, including the recovery of the startup costs from LEOFF Plan 2 members:

	FY 06	FY 07	FY 08	FY 09	FY 10	FY 11
New Medical Fund	\$ -	\$ 32,778	\$ 60,556	\$ 60,555	\$ 60,556	\$ 60,555

II. C - Expenditures

The estimated total expenditures are detailed below:

	FY 06	FY 07	FY 08	FY 09	FY 10	FY 11
Fund 721	\$ -	\$1,868,716	\$2,131,617	\$ 2,302,134	\$ 2,453,998	\$ 2,600,533
Fund 418	\$ -	\$ 270,650	\$ 181,059	\$ 181,069	\$ 181,077	\$ 181,085
Total Expenditures	\$ -	\$2,139,365	\$2,312,676	\$ 2,483,202	\$ 2,635,076	\$ 2,781,618

PEBB Background and General Assumptions:

PEBB purchases health care benefits for many subgroups composed of many members. By purchasing insurance for combined groups, the higher costs for sicker and/or older members are somewhat offset by

HCA Fiscal Note

Bill Number: HB 2162

HCA Request #:05-52

the lower costs for healthier and/or younger members. PEBB has two distinct groups of members: (1) the state active employees and non-Medicare retirees and (2) Medicare retirees. Each group is referred to as a "risk pool." The insurance companies evaluate the risk involved to insure each group and establish rates based on the perceived risk of future claims.

PEBB Non-Medicare Subsidy Assumptions:

The state active/non-Medicare risk pool consists of all state active employees and non-Medicare retirees under the age of 65 who are not eligible for Medicare. This bill proposes to allow LEOFF Plan 2 members who will retire or have retired from employment to join PEBB. As the numbers of older participants join PEBB, the insurance companies risk of future health care claims increases. Based on available claims, demographics, and diagnostic data, HCA's actuaries, Mercer Human Resources Consulting, estimate that PEBB non-Medicare retirees have approximately a 50 percent higher risk factor than a state active enrollee, and HCA assumes health plans would raise their premium rates to cover the increased costs. The additional state cost from the pooling of non-Medicare retiree enrollees with the younger, state active employees is referred to as the non-Medicare implicit subsidy. Enrolling more non-Medicare retiree enrollees in the risk pool increases this implicit subsidy. HCA assumes that the rate charged to the medical board will cover these additional increases, so current PEBB members and K-12 school districts will not be charged additional expenses from retired LEOFF Plan 2 members joining PEBB. The new LEOFF Plan 2 members joining PEBB are estimated to increase the blended premium rate for a non-Medicare subscriber from \$689.38 per subscriber per month (pspm) for CY 06 to \$689.71 (pspm). See enrollment assumptions below.

PEBB Medicare Subsidy Assumptions:

HCA assumes that the additional Medicare retirees joining the Medicare risk pool will not affect Medicare plan rates, since the additional enrollee's health is assumed to be similar to the current Medicare population, therefore the blended Medicare retiree rate will remain at \$458.17 pspm for CY 06.

Enrollment Assumptions:

The Office of the State Actuary (OSA) and the Department of Retirement Systems has provided HCA with projections of how many LEOFF Plan 2 employees will be eligible to join PEBB in CY 06 – CY 11 based on this bill. HCA makes the following additional assumptions:

- 50% of eligible members will join PEBB.
- The retiree ratio of non-Medicare to Medicare eligibles will stay at 78% non-Medicare to 22% Medicare for CY 06 - 11, based on the Actuarial Valuation Report from 2003 provided by OSA.
- Non-Medicare: Of the group choosing PEBB, 59.4% would enroll in Uniform Medical Plan (UMP). (Percentage is calculated on current UMP/MCO non-Medicare retiree ratio from the fall 2004 legislative model).
- Medicare: Of the group choosing PEBB, 63.8% would enroll in UMP coverage. (Percentage is calculated on current UMP/MCO Medicare retiree ratio from the fall 2004 legislative model).

Based on these assumptions, the estimated total increase in PEBB enrollment is:

	CY 05	CY 06	CY 07	CY 08	CY 09	CY 10	CY 11
Non-Medicare Retirees	-	137	149	162	174	184	196
Medicare Retirees	-	39	43	46	50	52	56
Total Increase in PEBB	-	177	192	208	224	237	252

Administration:

HCA Fiscal Note

Bill Number: HB 2162

HCA Request #:05-52

HCA will require the assistance and expertise of actuaries to calculate the premium rates and subsidy. This will involve estimating the non-Medicare risk factor with and without the new enrollees each year so that the changes in the implicit subsidy can be determined. HCA will also require significant assistance to make one-time modifications to PEBB's current costing model. These expenditures are estimated at \$75,000 for FY 07 and \$10,000 ongoing.

In addition to the actuarial services discussed above, HCA will also need additional staffing as follows:

- 1.0 FTE Public Information Officer 2 to work on outreach materials to eligible retirees and assist with updating current employer group materials.
- 1.0 FTE Office Assistant Senior to manage correspondence and track appeals and assist training and outreach with scheduling and responding to requests for presentations to LEOFF Plan 2 retiree groups.
- 0.5 FTE Medical Program Specialist 2 to manage a project plan for enrollment of LEOFF Plan 2 members; draft rules, policies, processes and procedures while paying close attention to how they will impact current processes, policies and rules; and draft language for communication materials.
- 0.5 FTE Budget Program Specialist 3 to assist the program analyst with rate development and updates to the projection model.

Summary of Increase in expenditures:

	FY 06	FY 07	FY 08	FY 09	FY 10	FY 11
Estimated Expenditures for new Non Medicare Retirees	\$ -	\$1,055,239	\$1,201,997	\$ 1,298,212	\$ 1,383,910	\$ 1,466,608
Estimated Increased Implicit Subsidy Cost	\$ -	\$ 573,667	\$ 653,940	\$ 706,187	\$ 752,711	\$ 797,594
Estimated Expenditures for new Medicare Retirees	\$ -	\$ 239,809	\$ 275,681	\$ 297,735	\$ 317,378	\$ 336,331
Estimated Administrative Expenditure	\$ -	\$ 270,650	\$ 181,059	\$ 181,069	\$ 181,077	\$ 181,085
Total Expenditures	\$ -	\$2,139,365	\$2,312,676	\$ 2,483,202	\$ 2,635,076	\$ 2,781,618

Medical Board:

HCA assumes the medical board would incur administrative and actuarial expenditures to develop the employee contribution and retiree premiums. It also assumes that a third party actuary will not be needed. In total, HCA estimates the following administration costs to the medical board:

- \$5,000, reimbursement for board member travel and authorized expenses, ongoing.
- \$50,000, actuary costs for the development of employee contribution and premiums, ongoing.

Also, HCA assumes the medical board will incur a portion of these expenditures months before they will be able to collect employee contributions from LEOFF Plan 2 members. HCA assumes that this start-up cost would be funded by an appropriation into the new medical fund, and that these costs would be recouped over FY 07 – FY 11.

Medical Board expenditures estimates are detailed below, including the startup costs:

	FY 06	FY 07	FY 08	FY 09	FY 10	FY 11
New Medical Fund	\$ 25,000	\$ 30,000	\$ 55,000	\$ 55,000	\$ 55,000	\$ 55,000

Part IV: Capital Budget Impact

None

Part V: New Rule Making Required

Yes. Chapter 182-12 WAC would need amended to include eligibility for LEOFF Plan 2 retirees. A new section would need added to include procedures related to the remittance and to include new rules adopted by the Medical Board.

Individual State Agency Fiscal Note

Bill Number: 2162 HB	Title: LEOFFRS plan 2 medical board	Agency: 124-Department of Retirement Systems
-----------------------------	--	---

Part I: Estimates

☐ No Fiscal Impact

Estimated Cash Receipts to:

FUND	FY 2006	FY 2007	2005-07	2007-09	2009-11
Department of Retirement Systems Expense Account-State 600-1	319,340	1,830	321,170	3,660	3,660
Total \$	319,340	1,830	321,170	3,660	3,660

Estimated Expenditures from:

	FY 2006	FY 2007	2005-07	2007-09	2009-11
FTE Staff Years	0.3	0.0	0.2	0.0	0.0
Fund					
Department of Retirement Systems Expense Account-State 600-1	319,340	1,830	321,170	3,660	3,660
Total \$	319,340	1,830	321,170	3,660	3,660

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- ☒ If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- ☐ If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- ☐ Capital budget impact, complete Part IV.
- ☐ Requires new rule making, complete Part V.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe, by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.

This bill creates the Law Enforcement Officers' and Fire Fighters' Retirement System (LEOFF) Plan 2 Retiree Medical Board. This board will oversee the funding and provision of post-retirement health benefits for retirees of LEOFF Plan 2. Funding will be accomplished through the contributions of active members of LEOFF Plan 2 and through premiums paid by retirees that enroll in the health benefit plans. The roles of the principal organizations involved are summarized as follows:

- The Health Care Authority (HCA) will establish and manage the health benefit plans for participating retirees.
- The LEOFF Plan 2 Retiree Medical Board will oversee the creation and the on-going management of the retired LEOFF Plan 2 medical fund, and within that, the retired LEOFF Plan 2 medical expense fund. All contributions from active LEOFF Plan 2 members and premiums from participating LEOFF Plan 2 retirees will be deposited into that fund. The Medical Board will then remit to HCA the funds necessary to pay the costs of covering the participating retirees, and any associated administrative costs.
- The Washington State Investment Board (WSIB) will invest, reinvest, manage, contract, sell or exchange money in the funds, pursuant to investment policies the WSIB develops.
- The Department of Retirement Systems (DRS) will collect contributions from active LEOFF Plan 2 employees and premiums from participating LEOFF Plan 2 retirees and remit those amounts to the LEOFF Plan 2 medical fund.

II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

Section 13 of the bill identifies that all DRS expenses related to the implementation and administration of this act shall be reimbursed from the medical expense fund. This fiscal note assumes that the reimbursement would be handled as a cash transfer into the DRS Expense Account.

II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

See attached.

Part III: Expenditure Detail

III. A - Expenditures by Object Or Purpose

	FY 2006	FY 2007	2005-07	2007-09	2009-11
FTE Staff Years	0.3	0.0	0.2	0.0	0.0
A-Salaries and Wages	14,000	1,397	15,397	2,794	2,794
B-Employee Benefits	4,340	433	4,773	866	866
C-Personal Service Contracts					
E-Goods and Services	301,000		301,000		
G-Travel					
J-Capital Outlays					
M-Inter Agency/Fund Transfers					
N-Grants, Benefits & Client Services					
P-Debt Service					
S-Interagency Reimbursements					
T-Intra-Agency Reimbursements					
Total:	\$319,340	\$1,830	\$321,170	\$3,660	\$3,660

Request # 05-048-1

III. B - Detail: *List FTEs by classification and corresponding annual compensation. Totals need to agree with total FTEs in Part I and Part IIIA*

Job Classification	Salary	FY 2006	FY 2007	2005-07	2007-09	2009-11
Financial Analyst 2	40,512	0.0	0.0	0.0	0.0	0.0
Financial Analyst 3	46,992	0.3		0.1		
Total FTE's		0.3	0.0	0.2	0.0	0.0

Part IV: Capital Budget Impact

No impact.

Part V: New Rule Making Required

Identify provisions of the measure that require the agency to adopt new administrative rules or repeal/revise existing rules.

No impact.

II. C - Expenditures

Administrative Assumptions

- Active member contributions, for the medical expense fund, will be collected as an additional percentage of the reportable compensation submitted to DRS for retirement purposes.
- The tax status of the member health contributions will mirror the tax status of the member retirement contributions.
- DRS will remit active member contributions to the medical fund and a corresponding data file, containing individual demographic data and contribution amounts, to the Medical Board.
- DRS will not report information, such as an annual statement of medical account funds, back to the member.
- DRS will deduct premiums for participating retirees and remit them to the medical fund in a manner consistent with current HCA retiree premiums.
- The Medical Board will reimburse DRS for the on-going administrative expenses associated with the collection of contributions and premiums.

The assumptions above were used in developing the following workload impacts and cost estimates.

Fiscal Unit

To implement this program, fiscal staff will perform the tasks identified below. Additionally, on an on-going basis, fiscal staff will reconcile and remit the appropriate contributions and premiums to the medical expense fund.

- Define business requirements for the automated systems
- Develop new rules and operating policies
- Conduct user acceptance testing
- Conduct staff training

One time: Financial Analyst 3 – 560 hours (salaries/benefits)	\$16,510
On-going: Financial Analyst 2 – 144 hours biennium (salaries/benefits)	<u>\$3,660</u>
Total Estimated Fiscal Unit Costs	\$20,170

Automated Systems

DRS' automated systems will require the following modifications:

- Modify the Employer Information Transmittal System to allow employers to report medical account contributions in addition to member retirement contributions
- Modify the Member Information System to track medical account contributions
- Modify the Receivables Management System to manage medical account contributions reported by employers
- Create a new interface with HCA to transmit medical account contributions and data to the Medical Board

Programmer time of 2,800 hours @ \$95 per hour	\$266,000
DIS cost* of \$500 per week for 70 weeks	<u>\$35,000</u>
Total Estimated Automated Systems Costs	\$301,000

**cost for mainframe computer processing time and resources at the Department of Information Services*

ESTIMATED TOTAL COST TO IMPLEMENT THIS BILL:

	<u>2005-07</u>	<u>2007-09</u>	<u>2009-11</u>
FISCAL UNIT	\$20,170	\$3,660	\$3,660
AUTOMATED SYSTEMS	\$301,000	\$0	\$0
ESTIMATED TOTAL COSTS	\$321,170	\$3,660	\$3,660

Individual State Agency Fiscal Note

Bill Number: 2162 HB	Title: LEOFFRS plan 2 medical board	Agency: 126-State Investment Board
-----------------------------	--	---

Part I: Estimates

☒ **No Fiscal Impact**

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- ☐ If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- ☐ If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- ☐ Capital budget impact, complete Part IV.
- ☐ Requires new rule making, complete Part V.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe, by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.

The legislature intends to establish a medical board to oversee the funding and provision of postretirement health insurance benefits for retired members of the law enforcement officers' and fire fighters' retirement system plan 2. The legislature also intends to fund the postretirement health benefits through contributions made by active members of the law enforcement officers' and fire fighters' retirement system plan 2 and premiums paid by retirees that enroll in the health benefit plans.

Section 8: Creates an eleven member medical board to govern the retired plan 2 law enforcement officers' and firefighters' medical plans. Membership includes: three active law enforcement officers; three active fire fighters; one member of the house of representatives; one member of the senate; and three members with the expertise in the field of retiree health benefits.

Section 12: (3) The WSIB has the full power to invest, reinvest, manage, contract, sell, or exchange investment money in the medical fund and the medical expense fund. The WSIB is authorized to adopt the necessary investment policies for the funds. All investment and operating costs associated with the investment of money shall be paid pursuant to RCW 43.33A.160 and 43.84.160. (4) All investments made by the WSIB shall be made with the degree of judgment and care pursuant to RCW 43.33A.140 and the investment policy established by the WSIB. (5) When appropriate, the WSIB may commingle money in the medical fund and medical expense fund with other funds. (7) The WSIB shall routinely consult and communicate with the medical board on the investment policy, earnings of the trust, and related needs of the funds.

The proposed bill will increase workload, but not enough to generate a fiscal impact. The workload is associated research and development of investment options. The WSIB assumes that the medical fund is part of the current LEOFF plan retirement fund for purposes of how funds can be invested.

II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

Part III: Expenditure Detail

Part IV: Capital Budget Impact

Part V: New Rule Making Required

Identify provisions of the measure that require the agency to adopt new administrative rules or repeal/revise existing rules.
